

PERSANO

The Voice with a Soul

Cinematic Soul-Pop

Artist Biography

Persano is an independent European cinematic soul-pop artist known for his warm baritone voice and emotionally restrained production style. Branded as *The Voice with a Soul*, his music focuses on sincerity, human dignity, and long-term artistic growth rather than short-term trends.

In 2025, Persano gained steadily growing international recognition with the release of *Faith In Me* (featuring Elena Grace), a voice-driven soul-pop single centered on trust, resilience, and emotional honesty. His work resonated particularly across Europe, South Asia, and the Middle East, where audiences value clarity, respect, and message-driven music.

Inspired by classic soul and adult contemporary traditions while maintaining a modern cinematic restraint, Persano follows a deliberate “slow-burn” philosophy. His music is designed for longevity, cultural connection, and live performance rather than viral momentum.

As he prepares for international touring activity in 2026, Persano continues to build a high-trust artistic presence rooted in authenticity, peace, and global human connection.
